## OUR IMPACT

"These are a group of athletes who are usually looked at for their physical ability and not their mental capabilities. These books remind the boys and girls that there is more to them than just the sport. The parents love to have the ability to offer books to their kids to push academics."

— Brooklyn Titans

## OUR IMPACT

"It has been hard to connect with students during the pandemic. I was so excited to be able to GIVE my students books that I know they will love to bring home to keep. I think it shows that their school (and community-thanks to you!) truly care about them even if we aren't in school face to face right now."
